***Terminal Disclaimer***

1. The terminal disclaimers filed on September 23, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,835,240 and any patent granted on Application No. 10/622,746 have been reviewed and are accepted. The terminal disclaimers have been recorded.

**REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: This application teaches an aqueous ink composition comprising a color microparticle dispersion comprising an oil-soluble dye, a hydrophilic organic solvent and a fluorine surfactant of the specific formulas as claimed by applicants. The closest prior art of record is U.S. Patent No. 6,835,240, issued to Nashita et al. The Nashita et al. reference has been disqualified under 35 U.S.C. 103(c) as prior art in a rejection under 35 U.S.C. 103(a) since applicants have declared that the instant application and U.S. Patent No. 6,835,240 were, at the time the invention of the instant application was made, were commonly owned. The remaining prior art of record generally teach aqueous ink compositions comprising microparticle dispersions comprising an oil-soluble dye, a hydrophilic organic solvent and various surfactants but fail to teach or fairly suggest the use of the specific fluorine surfactants of the formulas as claimed by applicants. Accordingly, this application is allowable.
